

Dual Language Program Directory

Program Profile Submission:

When completing your program profile for submission to the Dual Language Program Directory, you will be asked to enter the information listed below. Please note that for the purposes of this Directory, CAL defines a dual language program at the District level, not the school level. Please submit only one program profile per school district. *Remember: the email address used when creating your profile will be used when you need to make future changes to your profile in the directory.*

Program Information

- Name of Program
- Name of School District
- Number of School Site(s): please count up the total number of schools where dual language programming is offered (*this may include elementary, middle, and high schools*)
- Address: District level address, if available (*e.g. Office of Multilingual Instruction, 5555 Union Street*), or of school if program is only housed and supported at the school level
- Phone: District level phone, if available, or school level if it is a single school program
- Fax, Email, Website: District level, if available, or school level if it is a single school

Primary Contact Person for the Program

- Contact Name (*e.g., program director, coordinator, lead teacher, coach, principal, etc.*)
- Position
- Address
- City, State, Zip
- Phone, Fax, E-mail

Background Information

- Languages used in Program
- First year of program implementation (not planning) at this site: *please indicate first YEAR of implementation (e.g. 2004)*
- Is this a public/private/magnet/charter school? (*yes/no*)

Program Type

- What level(s) does your program serve? Pre-K, elementary, middle school, high school (*check all that apply*)
- Allocation plan: 90:10, 80:20, 70:30, 60:40, 50:50 (*for programs with multiple schools and different models, check all that apply*)
- One-way or two-way (*for programs with multiple schools and different models, check all that apply*)
- Strand within a school or whole school (*for programs with multiple schools and different models, check all that apply*)
